JUSTICE OF THE PEACE COURTS

Analysis of Activity for the Year Ended August 31, 1993

Approximately 885* justice of the peace courts were in operation in the state during the state fiscal year which ended August 31, 1993. Each court was requested to submit a one-page report on activity of that court each month. Statewide, a total of 9,482 reports were submitted, out of a possible 10,586 for the year (a 90 percent reporting rate).

SIXTY-EIGHT PERCENT OF ALL FILINGS ARE TRAFFIC CASES

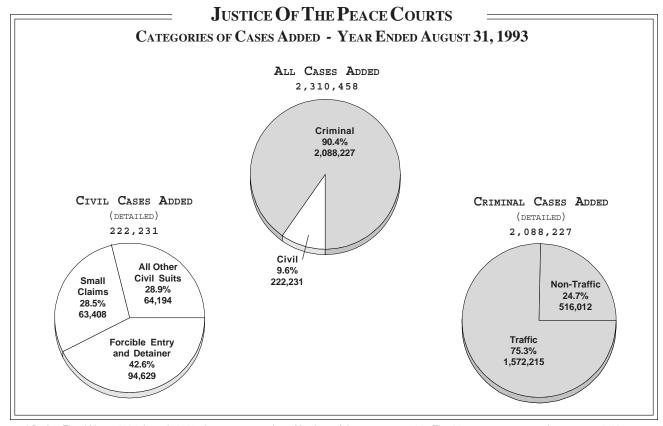

Criminal misdemeanor cases comprised 90.4 percent of the cases filed in the reporting courts. Of these misdemeanor filings, 75.3 percent were traffic cases (68 percent of all cases filed). During the fiscal year, 1,572,215 traffic cases were reported filed. Nontraffic criminal cases comprised 24.7 percent of the criminal cases filed. Civil cases provided 9.6 percent of the new cases filed. Small claims filings comprised 28.5 percent of all civil filings, 42.5 percent were forcible entry and detainer suits, and 29 percent were other civil actions.

In addition to cases filed, the reporting courts held 4,878 hearings to determine if a peace bond should be issued. In their capacity as a state magistrate, the reporting justices of the peace accepted 62,879 complaints within the jurisdiction of the county

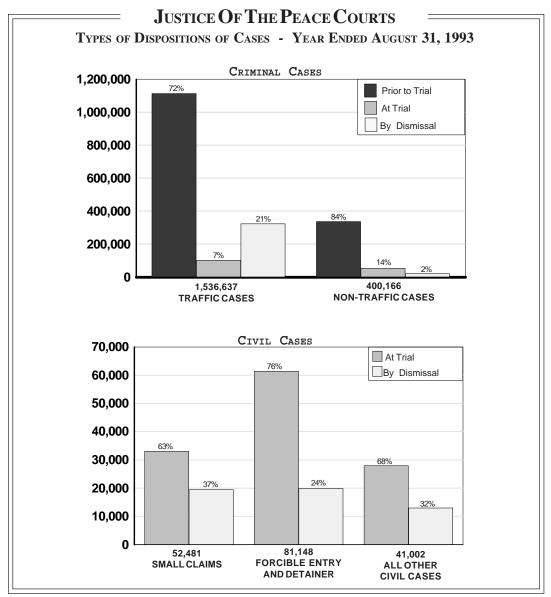

courts and 54,453 within the jurisdiction of the district courts (felonies). There were 2,746 examining trials held (preliminary hearings of district or county court cases) and 15,394 inquests conducted. Drivers license suspension hearings totaled 26,797. Arrest warrants were issued for 543,088 persons. Also, 3,593 search warrants were issued, and 177,496 defendants charged with county or district court offenses were given statutory warnings. Emergency mental commitment hearings were conducted on 7,704 occasions, and 16,286 matters relating to juveniles were transacted.

DISPOSITIONS

Justices of the peace reported the disposition of all cases in three major categories: prior to trial, including dismissals (other than those granted after completing a driving safety course, deferred disposition, or proof of financial responsibility), at trial, and cases dismissed. Seventy-one percent of all cases were disposed of before trial, 13 percent at trial, and 16 percent were dismissed after the defendant completed a driving safety course, a period of deferred disposition, provided proof of financial responsibility for the operation of a motor vehicle, or for other reasons.

^{*} During Fiscal Years 1984 through 1993, the average number of justices of the peace was 924. The 10-year average reporting rate was 81%.

Analyzing traffic cases only, 72 percent were disposed of prior to trial, 99 percent of those by payment of fine. Of the 7 percent that went to trial, 98 percent of the cases were tried before the judge alone and the remaining cases were tried before a jury. When traffic cases went to trial, the defendant was found guilty in 95 percent of the cases tried before the judge alone and in 78 percent of the cases tried before a jury.

Concerning non-traffic criminal cases, 59 percent were disposed of prior to trial by payment of fine or forfeiture of deposit made to insure appearance. Fourteen percent went to trial, and 27 percent were dismissed. Of those that went to trial, 99 percent were before the judge without a jury. Guilty findings were made in 90 percent of the trials before a judge alone and in 77 percent of the jury trials.

A much higher percentage (70 percent) of all disposed civil suits went to trial than did criminal cases (9 percent). Thirty percent of the disposed civil suits were dismissed before trial. Of the cases that went to trial, 99 percent were before the judge alone and the remainder before a jury.

The courts reported the disposition of 2,111,434 cases, which is 91.7 percent of the 2,310,458 filed, down from 92 percent during the previous year. Appeals were filed in 21,837 cases tried in the justice of the peace courts, or a little more than one percent of the cases disposed.

Finally, justices of the peace reported holding 23,170 conferences prior to any legal action being filed in their courts. These conferences resulted in 14,535 cases not being filed as formal cases. Information on such conferences is not submitted by all reporting justices.

REPORTED REVENUES TOP \$118 MILLION

Total revenue collected by the reporting courts during the year was \$118,425,059, an 8.6 percent increase of approximately \$9,350,876 over the previous year. This revenue is deposited in the treasury of the county where the court has juridiction; however, certain court costs on each case are remitted to special funds of the State.

CAUTIONARY STATEMENT

Perhaps more caution should be used in drawing general conclusions from court statistics than from statistics on other subjects. The included data do not attempt to portray everything courts or judges do, or how much time is spent on court-related activities not represented by these court statistics.

Particularly the county court judges, justices of the peace, and municipal court judges spend a large amount of time counseling with the people in their communities, and as a result of this counseling, many cases are not filed. In addition, as a result of their official position, many of these judges have non-judicial responsibilities in the community which are not reflected in these statistics.

It is important to note that reported totals for justice of the peace courts do not reflect 100% of the activity of those courts, because not all courts submitted reports on the activity of their courts to this office.
