Job Description: Performs highly advanced (senior-level), server, workstations, mobile device and network administration work. Work involves the recommendation of equipment, testing, implementation and operation of OCA's servers, workstations, mobile and network devices. This includes all services such as File and Print, DHCP, AD, DNS, Exchange Online, Office365, Cisco ASA and IPS. This position also acts as Tier III support for the servers, workstations and network. Includes collaboration with all levels of Information Services team members on a variety of technology topics. Proactively updates OCA Information Services management on ongoing issues. Ensures that policies and procedures are followed. Works under minimal supervision, with considerable latitude for the use of independent initiative and good judgment.

Essential Job Functions:

- Provides excellent customer service at all times, recognizing the importance of our end-users needs to get their jobs done. This includes appropriate escalation to management, proactive communication to management and end users as appropriate, and usage of the ticketing system
- Suggests innovations and improvements to OCA IS management that operate the OCA environment in a simple, efficient and clear manner
- Ensures all equipment is appropriately upgraded, patched and secured
- Recognizes the appropriate times to escalate issues to management and when to call vendor product support and following through to a complete resolution
- Collaborates with the team on implementation and operation of OCA supported servers. This includes (but is not limited to):
 - Using industry best practices for underlying services such as Virtual Hosts, Virtual Machines, Backups, DHCP, Active Director, DNS, Print Services, and File Services
 - Using VMs in a Hyper-V environment
 - Using VMs, file storage, and other services in the Microsoft Azure Cloud
- Collaborates with the team on implementation and operation of OCA supported workstations. This includes (but is not limited to):
 - Using System Center Configuration Manager to construct, test and deploy packages to OCA supported desktops
 - Using PowerShell and Group Policy to make changes efficiently to user accounts and machines as needed. Appropriately stores PowerShell scripts in OCA's source control
 - Researching and recommending new workstations for use in the environment
 - Troubleshooting Tier III PC support issues in a customer service oriented environment

- Collaborates with the team on implementation and operation of the OCA supported network. This includes (but is not limited to):
 - Maintaining OCA's internal network including ACLs, VLAN definitions
 - Maintaining OCA's Wide Area Network, including troubleshooting, resolving and escalating issues with vendors that provide WAN services
 - Maintaining local Internet connections at the Courts of Appeals, including troubleshooting, resolving and escalating issues with vendors that provide local Internet services
 - Assists with troubleshooting of application connectivity issues with the Application Development Group
- Performs related work as necessary

Minimum Qualifications:

- Graduation from an accredited four-year college or university with major course work in computer information systems, computer science, or a related field; may substitute four years of full-time relevant experience for required education on a year-for-year basis
- Two years' experience administering Microsoft Exchange
- Experience administering Microsoft VMs, including web servers, SQL Servers – using Windows Server 2008 and Windows Server 2012 in a Hyper-V or MS Azure environment
- Ability to communicate effectively (both written and verbally) and prepare clearly written documentation on technical matters, in non-technical terms
- Ability to identify problems, evaluate alternatives, propose solutions, and implement effective solutions

Preferred Qualifications:

- Experience administering Office365
- Experience using PowerShell
