

DPS Resources and Information

TLETS User IDs

To access criminal history information from TCIC and NCIC, a user must have a Texas Law Enforcement Telecommunications System (TLETS) User ID by DPS. A TLETS User ID is unique to each user and cannot be shared.

The PSRS will allow access to query criminal history information from TCIC and NCIC through the PSRS; therefore, users who will query for criminal history information must request a TLETS User ID from DPS. *Please note that **not** all users will need to query TCIC/NCIC. You can refer to our Magistration and the PSRS document on the website to decide which users will need to query for criminal history information.*

To request a TLETS User ID from DPS, the TAC must submit a New User Request Form.

For more information on how to request a TLETS ID and a New User Registration Form, contact DPS via email at: TLETS@dps.texas.gov
