## **OBJECTIVE, SCOPE, AND METHODOLOGY**

### **Objective**

The PICR Review is conducted to determine the Collection Program's 120-day collection rate on court costs, fees, and fines assessed on persons who have been convicted of crimes within the courts served by the program.

The PICR Review is performed for informational purposes only, and the scope of work performed does not constitute an audit under Generally Accepted Government Auditing Standards. Further, the PICR Review does not measure compliance, and has no effect on the compliance requirements of Article 103.0033(j) of the Code of Criminal Procedure.

### **Scope**

The scope of the review involves cases that were adjudicated in the City of Denton's Municipal Court during the city's fiscal year 2011 (October 1, 2010 – September 30, 2011).

### **Methodology**

1. Obtained cases with convictions or deferrals for the review period. The City of Denton provided a list of 21,494 cases that met this description.
2. Pulled a sample of 125 cases from the population of 21,494.
3. Examined the 125 sampled cases to determine the assessment date of the case, and reviewed collections and credits information during the first 120 days after the assessment date. In addition, a determination was made as to whether the defendant paid the total amount assessed immediately upon its becoming due.
4. Calculated an overall pre-implementation collection rate pursuant to Article 103.0033(f) of the Code of Criminal Procedure. The rate was calculated by dividing the total dollar amount collected in the first 120 days for the sampled cases by the total amount assessed for the sampled cases.
5. Calculated collection rates at 30-day intervals by dividing the total dollar amount collected during each interval for the sampled cases by the total amount assessed for the sampled cases.
6. Calculated rates for jail time credits, community service credits, and indigency waivers by dividing the total dollar amount for each type of credit for the sampled cases by the total amount assessed for the sampled cases.
7. Calculated the percentage of defendants who pay their total assessment of court costs, fees, and fines immediately by dividing the count of these defendants by the total number of cases in the sample (125).
