

Before the Presiding Judges of the Administrative Judicial Regions

Per Curiam Rule 12 Decision

APPEAL NO.: 13-003

RESPONDENT: Caldwell County Court at Law Judge Edward L. Jarrett

DATE: October 3, 2013

SPECIAL COMMITTEE: Judge Stephen B. Ables, Chair; Judge Olen Underwood; Judge David Peebles; Judge Dean Rucker, Judge Jeff Walker

Petitioner requested from Respondent copies of all information and communications regarding a specific family. Respondent informed Petitioner that the request was too broad and failed to provide sufficient information for him to identify the requested records. Petitioner then filed this appeal.

In her request for appeal, Petitioner clarified that the family she was inquiring about had been involved in a case in Respondent's court in which Petitioner was also a party. In his response to the appeal, Respondent informed this committee that with the additional information provided by Petitioner he had identified the case Petitioner was referring to and confirmed that he had not met nor communicated with any member of the family at issue and that he has no records responsive to the request.

There being no records responsive to the request, the appeal is denied.
