Employee Information System

Welcome to the Employee Information System (EIS), an online system for you to view and print your earnings statements and leave summaries instead of receiving hardcopies. The system is designed to lessen the amount of paperwork generated in the workplace and yet still give you full access to these documents.

An earnings statement is generated and posted on the web each time you receive a payroll payment. A leave summary is generated and posted monthly as requested by your agency. You may choose to receive an email notification every time a new statement (earnings or leave) is available for viewing.
