Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

Entity

The Office of Court Administration (OCA) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

The Office of Court Administration of the Texas Judicial System was created by the Sixty-fifth Legislature, which authorized the Office to operate in conjunction with the existing Texas Judicial Council. This legislation established a multi-purpose agency to operate under the supervision of the Texas Supreme Court. The Office of Court Administration and the Texas Judicial Council, a blended component unit, and their respective duties are discussed in detail in the Addendum to this report.

The Office of Court Administration has identified no discrete component units, which require disclosure.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the *State of Texas Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Fund Structure

The accompanying financial statements are presented on the basis of funds and account groups, each of which is considered a separate accounting entity.

Governmental Fund Types & Government-wide Adjustment Fund Types

General Revenue Funds

The General Revenue Fund (0001) is the principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in the other funds.

The Fair Defense Fund (5073) is used by the Texas Indigent Defense Commission to develop policies and standards under which attorneys may qualify for appointment to represent indigent defendants and a plan establishing statewide requirements for counties relating to reporting indigent defense information.

The Statewide Electronic Filing System Fund (5157) is appropriated to the OCA to support a statewide electronic filing technology project for the courts in Texas.

Capital Asset Adjustment Fund Type

Capital Asset Adjustment Fund (Fund 0998) will be used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

Long-Term Liabilities Adjustment Fund (Fund 0997) will be used to convert governmental fund types' debt from modified accrual to full accrual.

Fiduciary Fund Types

Agency Funds

Agency funds are used to account for assets held as an agent for individuals, other government entities, and/or other funds. These funds are custodial in nature and do not involve measurement of results of operations.

Component Units

The Office of Court Administration (OCA) operates in conjunction with the Texas Judicial Council as a blended component Unit. Additional information regarding the relationship between OCA and the Council can be found in Note 19.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual method basis of accounting. Under the modified accrual method, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end.

The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified basis of accrual. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual method of accounting. Activities included in these fund types are: capital assets, accumulated depreciation, unpaid employee compensable leave, the un-matured debt service (principal and interest) on general long-term liabilities, long-term capital leases, and long-term claims and judgments.

Budgets and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, and Fund Balances/Net Assets

ASSETS

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid assets.

Inventories and Prepaid Items

Inventories include consumable supplies and postage on hand at year-end. Inventories are valued at cost, generally using the last-in, first-out method. The consumption method of

UNAUDITED
OFFICE OF COURT ADMINISTRATION, TEXAS JUDICIAL COUNCIL (212)

accounting is used to account for inventories and prepaid items that appear in governmental fund types. The cost of these items is expensed when the items are used or consumed.

Current Receivables - Other

Other receivables include year-end revenue accruals. This account can appear in governmental and proprietary fund types.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Employees' Compensable Leave

Employees' Compensable Leave Balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net assets.

FUND BALANCE/NET POSITION

The difference between fund assets and liabilities is 'Net Assets' on the government-wide, proprietary and fiduciary fund statements, and the 'Fund Balance' is the difference between fund assets and liabilities on the governmental fund statements.

Fund Balance Components

Fund balances for governmental funds are classified as non-spendable, restricted, committed, assigned or unassigned in the fund financial statements.

Non-spendable fund balance includes amounts not available to be spent because they are either not in a spendable form (inventories) or they are legally or contractually required to be maintained intact.

Restricted fund balance includes those resources that have constraints placed on their use through external parties or by law through constitutional provisions.

Committed fund balance can be used only for specific purposes pursuant to constraints imposed by a formal action of the Texas Legislature, the State's highest level of decision making authority.

Assigned fund balance includes amounts constrained by the state's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by either the Texas Legislature or by a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

Invested in Capital Assets, Net of Related Debt

Invested in Capital Assets, Net of Related Debt, consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes and other debt that are attributed to the acquisition, construction or improvement of those assets.

Restricted Net Assets

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors and the like or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Assets

Unrestricted Net Assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted Net Assets often have constraints on resources that are imposed by management but can be removed or modified.

INTERFUND TRANSACTIONS AND BALANCES

The agency has the following types of transactions among funds:

- (1) Transfers: Legally required transfers that are reported when incurred as 'Transfers In' by the recipient fund and as 'Transfers Out' by the disbursing fund.
- (2) Reimbursements: Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) Interfund receivables and payables: Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter it is classified as "Current", repayment of two (or more) years is classified as "Non-current".

The composition of the agency's interfund activities and transactions are presented in Note 12.

NOTE 13: Continuance Subject to Review

The Office of Court Administration is not subject to Sunset review. However, both the Court Reporters Certification Board (CRCB) and the Guardianship Certification Board (GCB) are administratively attached to OCA, and both of those boards are subject to Sunset review. For the GCB, the effective date of abolition unless continued in existence as provided by the Texas Sunset Act is September 1, 2015. If abolished, the last date they may continue to operate in order to close out their operations is August 31, 2015. For the CRCB, the effective date of abolition unless continued in existence as provided by the Texas Sunset Act is September 1, 2017. If abolished, the last date they may continue to operate in order to close out their operations is August 31, 2017. The OCA provides administrative support to the Process Server Review Board (PSRB). It is subject to Sunset review as if it were a State agency, but may never be abolished. The review shall be conducted as if it were scheduled to be abolished by September 1, 2017.

Effective September 1, 2014, the CRCB, the GCB and the PSRB were abolished. A new Judicial Branch Certification Commission (JBCC) was created (see Addendum page 32). The JBCC is subject to Sunset Review, but may not be abolished. The review shall be conducted as if it were scheduled to be abolished by September 1, 2019.

NOTE 14: Adjustments to Fund Balance/Net Assets

The agency has no adjustments at this time.

NOTE 15: Contingencies and Commitments

The agency has no contingent liabilities at this time.

NOTE 16: Subsequent Events

Not applicable to this agency.

NOTE 17: Risk Management

The Office of Court Administration (OCA) is exposed to risk of loss in the following areas: torts, theft, damage, or destruction of assets, errors or omissions, and job-related illnesses or injuries to employees. It is agency policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

OCA assumes substantially all risks associated with liability claims due to the performance of its duties. For all losses as a result of any claims for a wrongful act (i.e., any actual or alleged error, misstatement, misleading statement, act or omission, or

UNAUDITED
OFFICE OF COURT ADMINISTRATION, TEXAS JUDICIAL COUNCIL (212)

neglect or breach of duty by the administrative director of the agency), including employment discrimination, wrongful terminations, and alleged retaliatory acts, the agency has purchased a Public Officials and Employment Practices Liability Policy from AIG, a commercial insurance carrier. The policy includes costs of defense, and has a \$100,000 deductible. There were no claims against this policy in FY 2014.

OCA assumes all risks associated with the theft, damage, or destruction of assets for all property. For all losses associated with Information Technology property located in the McLennan County Data Center the agency has purchased a Property Policy from AIG, a commercial insurance carrier. The policy includes costs of direct physical loss or damage, and has a \$10,000 deductible. There were not claims against this policy in FY 2014.

OCA's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Liabilities are re-evaluated periodically to consider current settlements, frequency of claims, past experience and economic factors.

Changes in the balances of the agency's claims liabilities during fiscal 2013 and 2014 were as follows:

	Beginning of Fiscal year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year-End
2013	\$0	\$0	\$0	\$0
2014	\$0	\$19,500.00	\$(19,500.00)	\$0

NOTE 18: Management Discussion and Analysis (Material Changes to AFR)

During FY2014, the Office of Court Administration began receiving deposits into the new Statewide e-Filing Fund (5157), pursuant to SB 2302, 83rd Legislature, R.S. SB 2302 requires the following fees to be collected:

- (1) In the Supreme Court of Texas, a court of appeals, a district court, a county court, a statutory county court, or a statutory probate court, a \$20 fee on the filing of any civil action or proceeding requiring a filing fee.
- (2) In a justice court, a \$10 fee on the filing of any civil action or proceeding requiring a filing fee.
- (3) In a district court, county court, or statutory county court, a \$5 court cost on conviction of any criminal offense.

Moneys in Fund 5157 are collected by counties and then remitted to the State Comptroller's Office. The Comptroller then transfers funds to the Office of Court Administration to, in turn, make payments to the statewide e-filing vendor. In FY2014, the first year of implementation of the new fees, OCA received \$11,102,567 in Fund 5157.

TEXAS JUDICIAL COUNCIL

The OCA operates in conjunction with the **Texas Judicial Council**, which is the policy-making body for the state judiciary. The Council was created in 1929 by the 41st Legislature to continuously study and report on the organization and practices of the Texas judicial system.

The Council studies methods to simplify judicial procedures, expedite court business, and better administer justice. It examines the work accomplished by the courts and submits recommendations for improvement of the system to the Legislature, the Governor and the Supreme Court. The Council receives and considers input from judges, public officials, members of the bar, and citizens.
