RE: FSC Disclosure #15-04 DPS—Abilene (Controlled Substance)

Dear Mr. Mills:

At its July 8, 2016 meeting, the Commission reviewed the disclosure reference above and determined the following:

Based on the documentary information provided by the laboratory—including but not limited to the laboratory's Quality Action Plan ("QAP") and the concluded prosecution of the criminal case—the Commission decided no further action is necessary at this time. The determination regarding no further action is conditioned upon the laboratory following through with all items described in the QAP including notification of the investigation and its outcome to all potentially affected prosecuting agencies.

If the laboratory identifies any material changes to the information provided regarding this disclosure, please notify the Commission as soon as possible.

If you have any questions, please feel free to contact the Commission's office.

Best regards.

Sincerely,

A handwritten signature in blue ink, appearing to read "LS", written over a circular stamp.

Leigh M. Savage
Associate General Counsel
