RE: FSC Self-Disclosure #18.04 – SWIFS (Toxicology)

Dear Dr. Sliter:

At its February 2, 2018 meeting, the Commission considered the referenced self-disclosure and decided no further action is necessary based upon corrective actions taken by the lab that include a case review of the analyst's work and counseling of the analyst, and a new lab policy pertaining to review of its reagent logbook.

Should the laboratory identify any material changes to the information provided or material issues in the case review, please notify the Commission as soon as possible. Please feel free to contact Commission staff with any questions or concerns.

Thank you.

Sincerely,

A handwritten signature in blue ink that reads "Kathryn Adams".

Kathryn Adams  
Commission Coordinator
