Re: TFSC Complaint No. 18.25 – Keller, Rob for Chance Keller (DPS Austin & Waco;
Firearms/Tool Marks, DNA)

Dear Mr. Keller,

At its January 25, 2019 meeting commissioners voted to dismiss the referenced complaint. The Commission requested and received all case material from the laboratories. This material was thoroughly reviewed by the Commission's senior scientist who made observations concerning the quality of the work, but concluded the findings would not have had an impact on the outcome of this case.

The Commission also sent the case to the director of its DNA Mixture Retroactive Case Review project, an appellate criminal attorney, for review. His opinion was that the case would not have been a candidate for DNA mixture recalculation based upon other overwhelming inculpatory case facts.

Thank you and let me know if I may be of any additional assistance.

Sincerely,

Kathryn Adams
Commission Coordinator
