Re: Texas Forensic Science Commission ("TFSC") Complaint No. 21.70, Floyd, James (UNTHSC; Forensic Biology/DNA)

Dear Mr. Floyd,

At its January 21, 2022 quarterly meeting, commissioners voted to dismiss the referenced complaint because no evidence to support the blanket allegation that laboratory analysts fabricated evidence and/or the forensic DNA analysis associated with your case. To consider such an allegation, more substantive information concerning the alleged action should be submitted for consideration by commissioners.

Enclosed please find a copy of the TFSC's Final Report related to a complaint filed by former Ft. Worth Police Department Crime Laboratory DNA analyst, Trisa Crutcher (TFSC Complaint No. 20.47). The complaint was filed on the eve of a pretrial hearing held in the case, The State of Texas v. James Floyd, CauseNo. 1494376D, 369th Judicial District Court of Tarrant County, Texas.

Thank you.

Sincerely,
Robert Smith
