Docket Adjustments

- ▶ ...to increase balances are usually caused by new cases not entered prior to a report being run.
- ▶ ...to decrease balances are usually caused by dispositions not entered prior to a report being run.
- ▶ ...can usually be prevented. Set time frame when all cases must be updated in the case management software system so accurate report can be run.

Docket Adjustments

- ▶ **Large** docket adjustments must be accounted for in the Notes Section at bottom of report
 - ▶ Most typical causes:
 - ▶ Audit/validation of case inventory
 - ▶ Conversion to new case management system
 - ▶ Dispositions entered on old cases that had judgments but had not been updated in the case management system
 - ▶ Purging cases in which statute of limitations has expired

Docket Adjustments

- ▶ To **increase** number of cases pending in a certain case category, enter the number of cases you need to increase the category by
 - ▶ Do not enter plus sign (+)
- ▶ To **decrease** number of cases pending, enter the number of cases you need to decrease the category by
 - ▶ You must enter a minus sign (-)

Docket Adjustments

- ▶ **Do not** enter the numbers that you want the total pending, active pending, or inactive pending cases to be
- ▶ Doing this could result in inadvertently doubling court's reported pending caseload

Reviewing the Report

"Quality Means Doing it Right When No One is Looking"
(Henry Ford)

Reviewing the Report

- ▶ Review your submitted report **each month** for accuracy, particularly if you upload your report, even if it is not out of balance

Look for:

- ▶ Any reports that are out of balance (**red**)
- ▶ Filings, docket adjustments, dispositions, or pending case numbers that are too low, too high, or that do not make any sense. A typo may have been entered, or a set of figures may have been entered into the wrong line.
- ▶ No new cases filed or no dispositions

Look for:

- ▶ Docket Adjustments – is an explanation needed?
- ▶ Uncontested Dispositions vs. Trials – no or low number of Uncontested Dispositions; number of trials should most likely be much lower than number of uncontested dispositions
- ▶ Compliance Dismissals – missing or obviously too low or too high?

Look for:

- ▶ Negative pending cases
- ▶ Uploaded information that does not match the report generated from your case management system
- ▶ Uploaded report that shows zeroes in all lines except pending cases and Total Cases on Docket

Look for:

- ▶ Errors in lines involving dollar amounts: \$0 collected, dollar amounts including cents
- ▶ Dollar amounts entered in lines that capture a count of cases
 - ▶ Cases satisfied by community service
 - ▶ Cases satisfied by jail credit
 - ▶ Cases in which amounts waived for indigency

Look for:

- ▶ Too many cases reported in All Other Dispositions. This category should rarely be used.
 - ▶ Examples include:
 - ▶ Transfer to juvenile court (mandatory or discretionary) (Family Code, Sec. 51.08(b)(1) or (2)) or
 - ▶ Probationary or compliance dismissals that do not fit into one of the other disposition categories

Look for:

- ▶ Examples of cases incorrectly reported under All Other Dispositions:
 - ▶ Cases where a disposition code was entered but no judgment date or vice versa
 - ▶ Dismissals on old cases
 - ▶ Uncontested Dispositions (paid fine (or requested payment plan) without appearing before judge)

Look for:

- ▶ Docket Adjustments – is an explanation needed?
- ▶ Uncontested Dispositions vs. Trials – number of trials should most likely be much lower than number of uncontested dispositions
- ▶ Compliance Dismissals – missing or obviously too low or too high?

Look for:

- ▶ Ratio of filings to dispositions
- ▶ Missing information in Juvenile/Minor Activity section (juvenile case types)
- ▶ Missing information in Additional Court Activity Section (magistrate warnings, arrest warrants, etc.)
- ▶ Community Service and Jail Credit – are you reporting only when case is satisfied in full?

Reviewing the Report

- ▶ Refer to the report instructions on Monthly Reports webpage to determine what should be reported where
- ▶ Contact your software vendor if obvious programming issues are found
- ▶ Contact OCA if you have questions or need our assistance

Annual Data Verification

- ▶ Letter with a copy of the report combining all months submitted will be sent to the court for verification of the data in October
- ▶ Corrections must be made to individual months

Correcting the Report

"A man who has committed a mistake and doesn't correct it, is committing another mistake" (Confucius)

Correcting the Monthly Report After Review

- ▶ Corrections:
 - ▶ May be made by uploading a corrected XML file or by manually changing the number(s)
 - ▶ May not be made to the annual totals but must be made in each month a correction is needed

Correcting the Monthly Report After Review

- ▶ Corrections:
 - ▶ Must be made sequentially in the Criminal and Civil Sections because of pending case balances
 - ▶ Need to be reviewed just like when the report was originally submitted to ensure accuracy
 - ▶ Require review of any subsequent months that were already entered to check for docket adjustments

Correcting the Monthly Report After Review

- ▶ If docket adjustments were entered in a month because a section or sections was skipped, once the missing section is submitted, corrections will need to be made to those sections in the subsequent months already entered

Correcting the Monthly Report After Review

► Example of sections that were skipped
